

What is claimed is:

[Claim 1] 1. A method of manufacturing cosmetic powder puffs, comprising the steps of:

- (i) providing a plurality of powder puff layers;
- (ii) disposing adhesive layers between powder puff layers respectively;
- (iii) performing a thermal treatment process so that the adhesive layers adhere the powder puff layers to form a powder puff block;
- (iv) cutting the powder puff block to obtain a plurality of powder puff slices;
- and
- (v) trimming the powder puff slices to obtain a plurality of cosmetic powder puffs.

[Claim 2] 2. The method manufacturing cosmetic powder puffs according to claim 1, wherein the plurality of powder puff layers are stacked in an orderly manner.

[Claim 3] 3. The method manufacturing cosmetic powder puffs according to claim 1, wherein the powder puff layers comprise a single color or a variety of colors.

[Claim 4] 4. The method manufacturing cosmetic powder puffs according to claim 1, wherein said power puff slice can be trimmed into different shape and size of said cosmetic powder puffs with a variety of patterns.
